MC series

UHF Mobile Antenna (380-470 MHz)

DESCRIPTION

Vehicular antenna conceived for UHF band and particulary suitable for the motorcicle installation. It's made of high quality materials such as fiberglass, chromed brass, nylon and stainless steel to guarantee the best performance. MC series doesn't need any tuning and its standardly supplied with low loss cable (CO100) and TNC-male.

SPECIFICATIONS

Electrical data:

Type : $1/2 \lambda$

: MC 430-450 430-450 MHz @ SWR ≤ 2

Impedance : 50Ω Unbalanced Radiation (H-plane) : 360° Omnidirectional

Polarization : Linear Vertical Gain : 0 dBd - 2.15 dBi

SWR @ resonant freq. : ≤ 1.2 Max power : 30 Watts

Grounding protection : All metal parts are DC-grounded, the inner

conductor is coupled capacitively

Cable lenght / Type : lenght on request / CO100 white low loss

Connector : TNC-male, other type on request

Mechanical Data

Materials : Fiberglass, Chromed brass, Steel, Nylon Height (approx) : MC 380-400 355 mm (without bracket)

: MC 430-450 330 mm (without bracket)

Weight (approx.) : 500 gr
